

INTERFACE – Creating Hotkeys for Mac to Control Recorder from a Keyboard

➤ **STEP #1:** Click on Settings

➤ **STEP #2:** The Hotkey for Recording/Pausing for Mac users defaults to Command+Shift+R, **note that the up arrow equals the shift button.** Likewise, the Hotkey for stopping from the keyboard defaults to Command+Shift+S. Note you can also create your own Hotkeys by clicking on the X, then clicking on the record option that appears, then type in your sequence of keys.

➤ **STEP #3:** Click on Okay when done.
